

Course::operator<<

Course::operator>>

Course::Course

```
graph LR; A[Course::operator<<] --> C[Course::Course]; B[Course::operator>>] --> C;
```

The diagram illustrates the relationship between two operators and a constructor. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'Course::operator<<' and the bottom box contains 'Course::operator>>'. On the right, there is a gray rectangular box with a black border containing the text 'Course::Course'. Two blue arrows point from the right side of the top-left box to the left side of the gray box, and from the right side of the bottom-left box to the left side of the gray box.
